

Educational Project

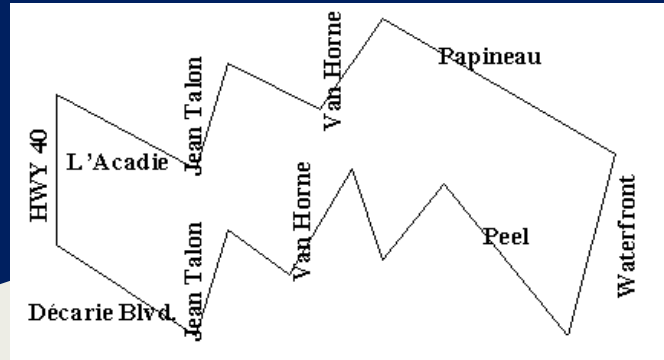

Education is a partnership involving parents, school staff and community.

- Parents, school Staff and Community at Carlyle School aim to turn dreams into achievements and prepare Carlyle students for life.
- We encourage respect, critical thinking, life-long learning, tolerance and pride within a safe and nurturing environment.
- We are committed to developing the learner's personal, social and academic capacities by providing a child-centered, inquiry-based curriculum that links classroom experiences to global issues.
- We promote the educational partnership involving parents, school staff and community

Students who graduate from Carlyle will have learned and acquired the skills that foster autonomy, responsibility, cultural sensitivity and an internationally-minded orientation.
