

WELCOME BACK

Dear Parents,

My name is Adele Tevel and it is my pleasure to be your child's teacher this year. I am very excited to get to know each of my students and begin a full year of enriched learning.

A student-centered approach will be used in my classroom. Namely, the students will be active participants in their own learning. I will be working with the students individually, in groups and as a whole class in all areas in the curriculum. The students will be engaged in various hands-on activities while being encouraged to try their best and take risks.

Throughout the year I will dedicate myself to your children and work towards instilling in each of them a true love for learning. I am confident that by working together, we can assure success for all. I believe in teamwork between parents and teachers and I will make every effort to keep you involved in your child's classroom life. Please do not hesitate to contact me if you have any questions or concerns throughout the year.

I am looking forward to experiencing a wonderful year with your children.

Sincerely,

Mrs. Adele Tevel
Grade 5
