

RESOURCE PROGRAMME

The responsibility of the remedial teachers at East Hill School is to support students so that they may achieve success to their fullest potential. The daily focus is on the students' *strengths* as well as their areas for improvement. Praise and encouragement for a task well done build their self esteem and allow them to reach a place where the possibilities for success are endless.

The goal of the remedial program is to contribute to the students' overall well being as learners so that they will be better prepared to face the challenges of high school. Individualized Educational Plans are developed identifying each student's needs and outlining their individual goals and objectives.

Roses

When we plant a rose seed in the earth, we notice that it is small, but we do not criticize it as 'rootless and stem less.' We treat it as a seed, giving it the water and nourishment required of a seed.

When it first shoots up out of the earth, we do not condemn it as immature and underdeveloped; nor do we criticize the buds for not being open when they appear. We stand in wonder at the process taking place and give the plant the care it needs at each stage of its development.

The rose is a rose from the time it is a seed to the time it dies. Within it, at all times, it contains its whole potential. It seems to be constantly in the process of change; yet at each state, at each moment, it is perfectly all right as it is."
