Study Methods

Yanick Renault yrenault@emsb.qc.ca

Term 1 (20%): 30 August – 28 October	Term 2 (20%): 1 November – 3 February		er – 3 February	Term 3 (60%): 7 February – 22 June
Skills Targeted		Evaluation Methods		
 Creating & following through with a work plan. Setting short-term & long-term goals Developing time management & organization skills. 		Students will be evaluated on the extent to which they develop & follow through on the targeted skills.		

Study Methods are set times periods throughout the week, for students to work on their schoolwork independently. During this time, students are expected to continue any unfinished work they have assigned from any of their classes out of the way, to study for an upcoming test, or to catch up on any missed work and or notes.

Study Methods is also a priority for the success of our Sec 5 students looking to earn the proper amount of credits needed to graduate.

Meaningful homework is beneficial for student growth, so the Study Methods periods are meant to help students have more time to get these assignments finished.

This way the students will not use the "not enough time" or that their "extra-curricular activities" as the reason that homework could not be completed.
